

PRIVATE EQUITY LEADERS

Success Begins With Talent

Private Equity Leaders is an initiative to identify senior-level executives who have identified specific acquisition targets and partner with private equity sponsors who have an aligned investment thesis.

We work with candidates to make sure an investment thesis is clearly formulated prior to an introduction with a private equity sponsor. We seek to ensure that fit, culture, and values match, in order to optimize the business outcome and professional development.

Our program aims to successfully partner industry executives with Private Equity sponsors, closely held businesses, e.g., family office portfolio companies and venture capital firms thus resulting in CEO's, COO's, CFO's. Chairmen, Directors and strategic advisors for platform companies.

Characteristics of a Private Equity Leaders Candidate

- Highest level of integrity
- Significant P&L responsibility
- Seasoned executive within their industry
- CEO caliber executive with leadership skills
- Ability to build, manage, and grow strong leadership teams
- Entrepreneurial spirit and ability to clearly articulate a vision
- Knowledge about the process of acquiring and integrating companies
- History of successfully growing companies and creating shareholder value
- Investment thesis within their industry of expertise that they would like to pursue in partnership with a private equity sponsor
